

Mood Board: AUTUMN 2025- TABLE

Proposals due by: **August 25, 2024.** Final work due by: **March 15, 2025**

The Autumn issue of WEFT is our End Use issue and the theme for Autumn 2025 is Table! Help us set a stunning table. Let’s see some gorgeous, innovative tablecloths, table runners, placemats, napkins, and chair cushions! Of course, we want more than projects, we want the how and why too. What’s the best structure for placemats to keep crumbs at bay or to add the stay-put weight you want? How do you make table linens truly reversible so you can use them more before washing or go from celebratory to sophisticated? Can you test a range of fibers and tell us what the best is for napkins? What about hemming? Seaming when your loom isn’t wide enough? Is there a best fiber/structure for stain resistance? Tell us about end finishes. What kind of thoughts go into designing table linens? If it’s got to do with table linens, the fibers, structures, or finishes involved, we want to hear about it!

Please propose your article/project ideas here. Any photos or mockups can be sent to lisa@weftmagazine.com

Proposals for articles and project are due by Aug 25, 2024

We’ll let you know by Sept 15th, 2024

Final articles, sample, and projects due by March 15, 2025
